

MOVING GLASS WALL SYSTEMS

Luxurious Large Patio Doors
Stacking, Pocket and Bi-fold styles
Smooth and effortless operation

Luxury *Within Reach*

3-panel pocket door

2 | milgard.com

Open up to an entirely new way to look at luxury. Milgard Moving Glass Wall Systems are an innovative solution that blurs the line between inside and out of the question. Aspirational yet realistic, this sliding wall seamlessly transitions between dreams and reality.

Typically moving glass walls have only been a custom option in high-end homes. That is until Milgard re-framed the conversation. Now you can expand your living space with stacking, bi-fold or pocket doors in standard or custom sizes and configurations.

Plus enjoy the outstanding service, support and design you've come to expect from Milgard.

MOVING GLASS WALL SYSTEMS

Design that *Moves*

3-panel stacking door

Design

Milgard Moving Glass Wall Systems beautifully integrate with the other Milgard windows and patio doors in your home. Choose from several stock finishes including white, black anodized aluminum and wood clad (clear vertical grain Douglas Fir and Pine).

Available in custom sizes for replacement projects in addition to standard sizes for new home construction.

Ease

Moving Glass Wall Systems operate smoothly and effortlessly. Despite their larger-than-life size, these doors open and close with ease to bring the outside in, or expand your living space. The secret is the tandem stainless steel ball bearing rollers that are strong enough to carry door panels nearly double their size. It's simply luxury that's easy to use.

Confidence

Our proven history as one of the most trusted names in windows and patio doors assures that a Milgard Moving Glass Wall System will be installed correctly and function properly. Enjoy the very best pairing of functionality and design.

Make it *Your Own*

Sill Options

Water Barrier Sill (standard)

Provides protection from water penetration and is recommended for all exterior applications. The 1.5" interior leg protects against water entering the inside of your home and the back leg of each sliding panel penetrates the track for additional protection against exterior elements. Available only in black anodized finish.

Flush Sill (optional upgrade)

Ideal for conditions in which ease of entry is more important than weather performance. The interior and exterior height of the sill is only .75" and can flush out with most interior flooring for a smooth transition outside.

Retractable screen (optional upgrade)

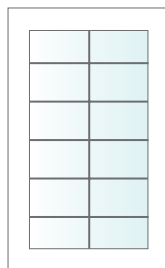

Let in the air and light with high quality, pleated retractable screens.

Retractable screens available only for 8' high Stacking and Pocket doors with flush handle up to 16' wide.

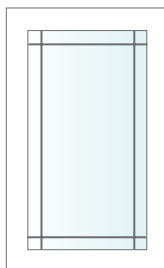

Grid Options

Simulated Divided Lites (SDL) available in a variety of configurations.

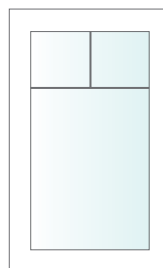

Available only on the Aluminum Clad Wood Stacking and Pocket Doors.

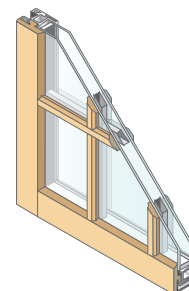

Standard

Perimeter

Valance

1-1/8" Vintage SDL

Stacking

Create a vibrant mural of the outdoors on your wall.

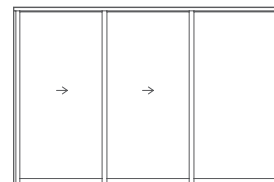

Large sliding glass panels offer sweeping outdoor views, flooding the room with natural light and fresh air.

Choose from two frame styles — aluminum clad wood or all aluminum.

The aluminum clad wood features a warm, rich wood interior to paint or stain and a tough, durable aluminum exterior in designer colors. This glass wall can also be accessorized with grids.

The all-aluminum option is a sleek, modern design in colors to match any decor.

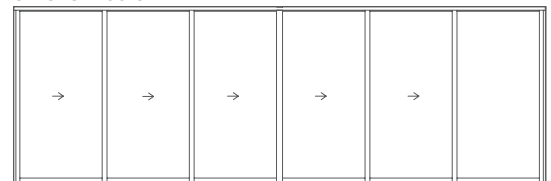

3-Panel Doors

Pocket

Seamlessly transition from the indoors to outdoors.

When fully open, the panels slide into the wall pocket and completely disappear from view.

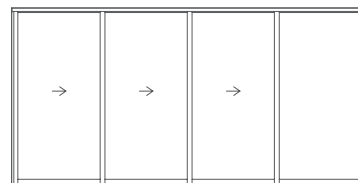

Even when they are closed, these expansive moving glass panels make a design statement. Make it your own with your choice of aluminum clad with warm wood interiors or sleek all aluminum in designer colors. Accessorize your aluminum clad wood door with grids.

It's simple luxury that's easy to use. Open up to maximize your view and allow fresh air. Closes just as easily.

Bi-fold

Unfold the potential of your living spaces.

Each panel folds on top of the adjacent panel when open.

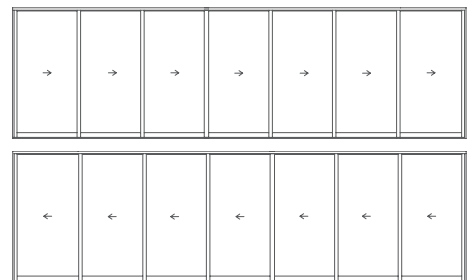

A smart and effective design to integrate the outdoors with indoor living.

Experience a luxurious way to enjoy all the space your home has to offer. Show off the aesthetics and let in fresh air. Bi-Fold door options can include more panels than those in Stacking and Pocket for a distinct design effect.
