Design is fundamental to delivering exceptional quality and value.

We draw from our experience to create truly innovative architectural hardware solutions that integrate perfectly together. From minimalist levers, to double towel rings and chef style kitchen faucets, we have your needs covered.

7

Each product we create starts with unique inspiration and follows the same creative process, advancing from idea to reality. It's a process that we trust and celebrate.

SLIP STREAM COLLECTION

Polished Chrome pages 30, 105

Fluidity in Design

Soft angles and gliding contours create a graceful flow in Slip Stream, our curated line of exclusive door and bath hardware.

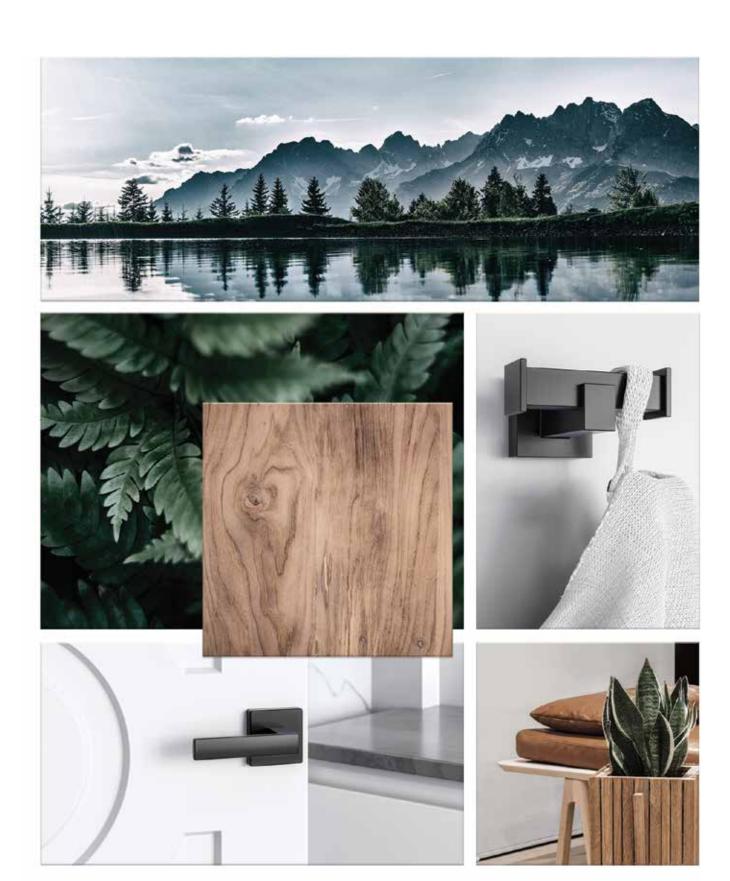

1948 COLLECTION

Matte Black pages 31, 107

Creativity Brings the Past to the Present

The commemorative 1948 collection pays homage to the year of Taymor's founding as well as the clean lines and geometric forms utilized in timber framing. Drawing inspiration from post-and-beam construction, these design features are embodied in the squared, stacked horizontal bars and connecting posts of the bath accessories, as well as the simple style and collarless rose of the levers.

Commercial Locks & Hardware

Designed for today's demanding architectural requirements, Taymor's comprehensive line of commercial hardware delivers consistent, dependable performance across an array of applications. From cylindrical locks and deadbolts to door closers and exit hardware; our commercial program has everything necessary to keep your entryways fully functional and up to code.

DUKE LOCKSET I SATIN CHROME

MAKING THE GRADE

Taymor meets performance standards set by the Builders Hardware Manufacturers Association (BHMA) and the American National Standards Institute (ANSI) for builder's hardware. The standards are defined by grades in which there are progressive levels of performance benchmarks. The purpose of standardized ANSI/BHMA product grades is to help identify the quality and durability of door hardware through a series of operational and security tests.

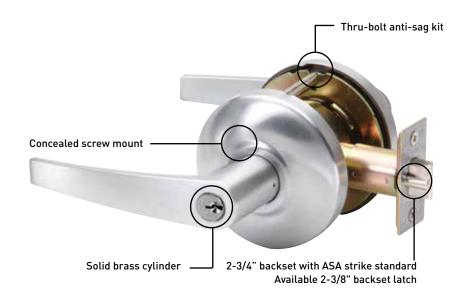

ANSI GRADE 1 ANSI GRADE 2 ANSI GRADE 3

Grade 1 is the strongest grade available for maximum duty commercial applications.

Grade 2 is designed and built to offer excellent security and durability for heavyduty commercial applications.

Grade 3 offers reliable security for both residential and light-commercial projects.

KEYWAY OPTIONS

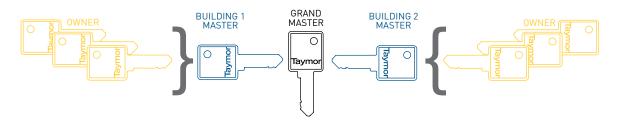

6-pin SC4 keyway for Premier Line 5-pin KW1 keyway for Builders Series **KEYED ALIKE (KA)** systems are a perfect solution for single-family homes where homeowners may want one key to open multiple locks; for example, the front entrance and the back door.

KEYED DIFFERENT (KD) systems are common in multi-family buildings where each unit opens with a unique key.

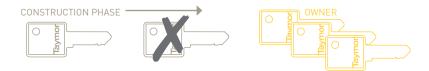

MASTER KEYING (MK) systems are common in multifamily, commercial and institutional buildings where multiple levels of building access are required. Individual units each have a unique key and the master key permits access to all units for maintenance, and management staff as well as first responders.

GRAND MASTER KEYING (GMK) allows the owner or strata responsible for multiple buildings to have one grand master key that operates all locks. Individual units have a unique key while each building has a master key that permits access to all areas—or to targeted areas—for tenants, maintenance, and management staff as well as first responders.

CONSTRUCTION KEYING (CK) allows the contractor of a project full access during the construction period. Once the owner's key is inserted, operation by the initial construction key is permanently disabled.

DOUBLE KNOCKOUT CONSTRUCTION KEYING (CKRK) adds a realtor key between the construction key and the owner key, which essentially allows a real estate professional to get temporary access until final handover to the buyer occurs. Once the owner's key is inserted, operation by the realtor key is permanently disabled.

Warranty Information

DOOR HARDWARE & COMMERCIAL LOCKS & HARDWARE WARRANTY

Taymor is pleased to offer a Mechanical and Finish Warranty against defects in materials and workmanship for one full year to the original purchaser, effective from the date of purchase, unless otherwise specified. This warranty excludes products that have been damaged through misuse, accidental damage, alteration, normal wear and tear, or the use of corrosive or abrasive cleaning agents. This warranty is non-transferable and applies to products installed in a residential setting. Commercial use is only covered for our Commercial products as outlined in the chart below. Taymor is not liable for damages caused by incorrect installation nor incidental or consequential damages. At the company's discretion, Taymor will replace any part or finish that proves to be defective in material and/or workmanship under normal installation, use and service.

BATH HARDWARE & FAUCETS WARRANTY

Taymor is pleased to offer a Limited Lifetime Warranty against defects in materials and workmanship, to the original consumer purchaser from the date of purchase, as long as the original consumer purchaser owns the home in which the product(s) are installed.

This warranty excludes products that have been damaged through misuse, accidental damage, alteration, normal wear and tear, or by the use of corrosive or abrasive cleaning agents. This warranty applies to products installed in a residential setting. Purchasers for industrial, commercial and business usage are covered by a 5 year limited warranty from the date of purchase.

Taymor is not liable for damages caused by incorrect installation nor incidental or consequential damages. At the company's discretion, Taymor will replace any part or finish that proves to be defective in material and/or workmanship under normal installation, use and service. This warranty does not cover shipping costs, labor costs or any other cost associated with the installation or replacement of the product/parts and is extended only to the original consumer purchaser of the product(s). The original sales receipt must be supplied to Taymor for all warranty claims.

Taymor recommends using a certified plumber for installation and repair of faucets.

**Taymor Fundamentals faucets are backed by a 1 Year Limited Warranty from date of purchase

CARE & CLEANING TIPS

Taymor uses advanced technology to create a finish highly resistant to the effects of weather and normal wear and tear. Over time, frequency of use will cause some finishes to gracefully age in appearance. Additionally, exposure to atmospheric conditions and elements such as cleaning chemicals may cause some changes to occur. These finish changes are not considered manufacturing defects and are not covered by warranty. Rather, they are indicative of normal wear and tear. As always, following the manufacturer's care instructions will safeguard the longevity of your cherished Taymor product.

D0: Clean the product with mild soap and warm water. For best results, dry immediately with a soft, clean cloth.

DON'T: Do not use abrasive sponges or scouring agents for cleaning. We also advise against the use of solvents or acidic cleaners, lime scale removers, household vinegar and cleaning agents containing acetic acid.
